Mobile Wireless POS Carts

A fully mobile battery powered cash wrap, designed to support any manufacturer's POS terminal for up to 30 hours on a single charge. Excellent for grand openings, sidewalk sales, seasonal areas like garden centers and in-store promotions. "This is a no brainer for us."

Mobile Office/In-Aisle Printing/Signage Carts

Cut labor by reducing footsteps. Improve service by having taking the price checker/signer out of the office and onto the floor. One retailer called this application "a home run" and another says "...The ROI was very good but to me the best part is having the associate in the aisle helping customers".

DC Wireless Carts for Barcode/RFID Printing Carts

Cut labor cost by reducing footsteps. This cart can be configured for multiple applications. Raise, lengthen, add shelves and tops to suit. Battery runtime up to 48 hours continuous. Other Apps: BOL, Repak, Remedy, Crossdock, etc.
